

## SAFETY DATA SHEET

### 1 – IDENTIFICATION OF SUBSTANCE / AGENT AND COMPANY / FIRM

#### *Identification of substance / agent:*

Name: Paraffin oil  
Product code: 3001  
Use: Inert oil used for ensure of anaerobic environment for microbiological tests.

#### *Identification of company / firm:*

Name: DIAGNOSTICS s.r.o.  
Address: Hodská 68, 924 01 Galanta  
Tel.: +421 917 742 927 Fax: +421 269 202 902  
E-mail: info@diagnostics.sk  
<http://www.diagnostics.sk>

#### *Emergency link:*

Organization: National toxicological information centre, Limbová 5, 833 05 Bratislava  
Tel.: +421-2-54 774 166

### 2 – IDENTIFICATION OF HAZARDS

Product is not classified as dangerous according to directives of European Union.

### 3 – COMPOSITION / INFORMATION ON INGREDIENTS

Product does not contain components classified as dangerous according to directives of European Union.

### 4 – FIRST AID MEASURES

#### Contact with eyes:

Irrigate eyes with open lids several minutes with flow of running. Consult with doctor in case of retaining difficulties.

#### Contact with skin:

Immediately wash with water and soap and properly irrigate. Search doctor in case of retaining skin irritation.

#### After swallow:

Let victim drink huge amount of water. In case of nausea call doctor.

#### After inhalation:

Transfer affected person on fresh air.

### 5 – FIREFIGHTING MEASURES

#### Suitable extinguishing agents:

For extinguishing use these sorts of fire extinguishers carbon dioxide, foam or dry chemical according to materials stored in immediate proximity.

#### Specific hazards:

Flammable material. Burning can release dangerous fumes and vapours. Vapours are heavier than air.

#### Additional information:

Avoid contamination of system of surface or underground waters by water used for fire extinguishing.

## 6 – ACCIDENTAL RELEASE MEASURES

### Specific protective measures:

No specific requirements.

### Environmental protective measures:

Liquidate used or unused product as dangerous waste.

### Cleaning methods:

Remove by absorbent material. Send for disposal. Clean affected place with water and detergent.

---

## 7 – HANDLING AND STORAGE

### Handling:

Protect from light and moisture.

### Storage:

Store in dry place.

---

## 8 – EXPOSURE CONTROLS / PERSONAL

### PROTECTION Values of exposure limits:

Product does not contain materials with exposure limits.

### Protection of respiratory system:

Needed if vapours / aerosols are creating.

### Eyes protection:

Use safety glasses.

Additional information in section 11 – Toxicological information

---

## 9 – PHYSICAL AND CHEMICAL PROPERTIES

### Basic information:

State:	liquid
Colour:	colourless
Odour:	odourless

---

## 10 – STABILITY AND REACTIVITY

### Conditions, which must be avoided:

No specific conditions.

### Materials, which must be avoided:

There is no information available.

### Hazardous decomposition products:

There is no information available.

---

## 11 – TOXICOLOGICAL INFORMATION

### Acute toxicity:

LD50 (dermally, rabbit): >3000 mg/kg

LD50 (orally, rat): >5000 mg/kg

Specific symptoms in tests on animals: test for skin irritation (rabbit): weak irritation

#### Additional toxicological data:

By creating fumes / aerosols: Inhalation can lead to creation of edema in respiratory system.  
Cannot be excluded: pneumonia.  
After ingestion of big amount: digestive difficulties

#### Additional data:

There is no need to expect any toxic effects, if product is properly handled. Handle product with care usual for work with chemicals.

---

### 12 – ECOLOGICAL INFORMATION

#### Ecotoxicological effects:

There is no information available.

#### Additional ecological data:

There is no reason to expect ecological problems, if product is handled and used with proper caution and attention.

---

### 13 – DISPOSAL INFORMATION

#### Product:

Product disposal must be made according to official regulations.

#### Packaging:

Packaging disposal must be made according to official regulations.

---

### 14 – TRANSPORT INFORMATION

Product is not classified as dangerous according to transport regulations.

---

### 15 – REGULATORY INFORMATION

This Safety Data Sheet is prepared in accordance with formatting described in the REACH Regulation (EC) No 1907/2006, in CLP Regulation (EC) No 1272/2008 and in Annex II of Commission Regulation (EU) No 2015/830

#### Marking according to directives of ES:

Symbol(s): -  
R sentence(s): -  
S sentence (s): -

---

### 16 – OTHER INFORMATION

#### List of R-sentences used in safety sheet:

-

---

*Information stated in this safety data sheet is based on current state of our knowledge.  
It characterises product with consideration on adequate safety measures. It does not represent warranty of material properties.*
